Professor R. M. Angus,

University of Toronto.

Dear Professor Angus:

I am sending you a cheque for one hundred dollars which I have just received from Mr. H. R. Wood for the University Settlement.

I had forgotten to tell you that early in October I paid twenty-five dollars for four tons of coal for the University Settlement. It was necessary to have it in at once as there was no coal in the house and it was before there was any meeting of the Committee. In these circumstances will you be kind enough to charge the amount as my subscription for the year to the Settlement ?

Yours sincerely,

President.

Dear President Falconer:-

I telephoned Messrs McLean, Scully and Gibson who said they would attend a meeting of the Finance Committee in your office at 5 p.m. on Tuesday.

In order to get an idea of the work in the schools, done by the Settlement, I went to Ogden School last night to a concert given for the women of St. Christopher's and University Settlements. The concert itself was entirely musical, and of a particularly high order, and I much enjoyed it. I should say there would be about 150 present from the two settlements and the attention and order were perfect. The entire affair was most gratifying. I think the musicians came, partly at least, through the influence of Miss Cipher.

Yours sincerely

Robert W. Angus

Professor R. M. Angus,

University of Toronto.

Dear Professor Angus:

I handed your letter of resignation to Mr. Brebner. You make a generous offer, and I am sure that you are acting in a most conscientious way. I must say that I myself feel that it is necessary to come to a more satisfactory decision very soon as to the maintenance of this whole movement.

With kind regards, I am,

Yours sincerely,

President.
